

The Officials

Peering Eye

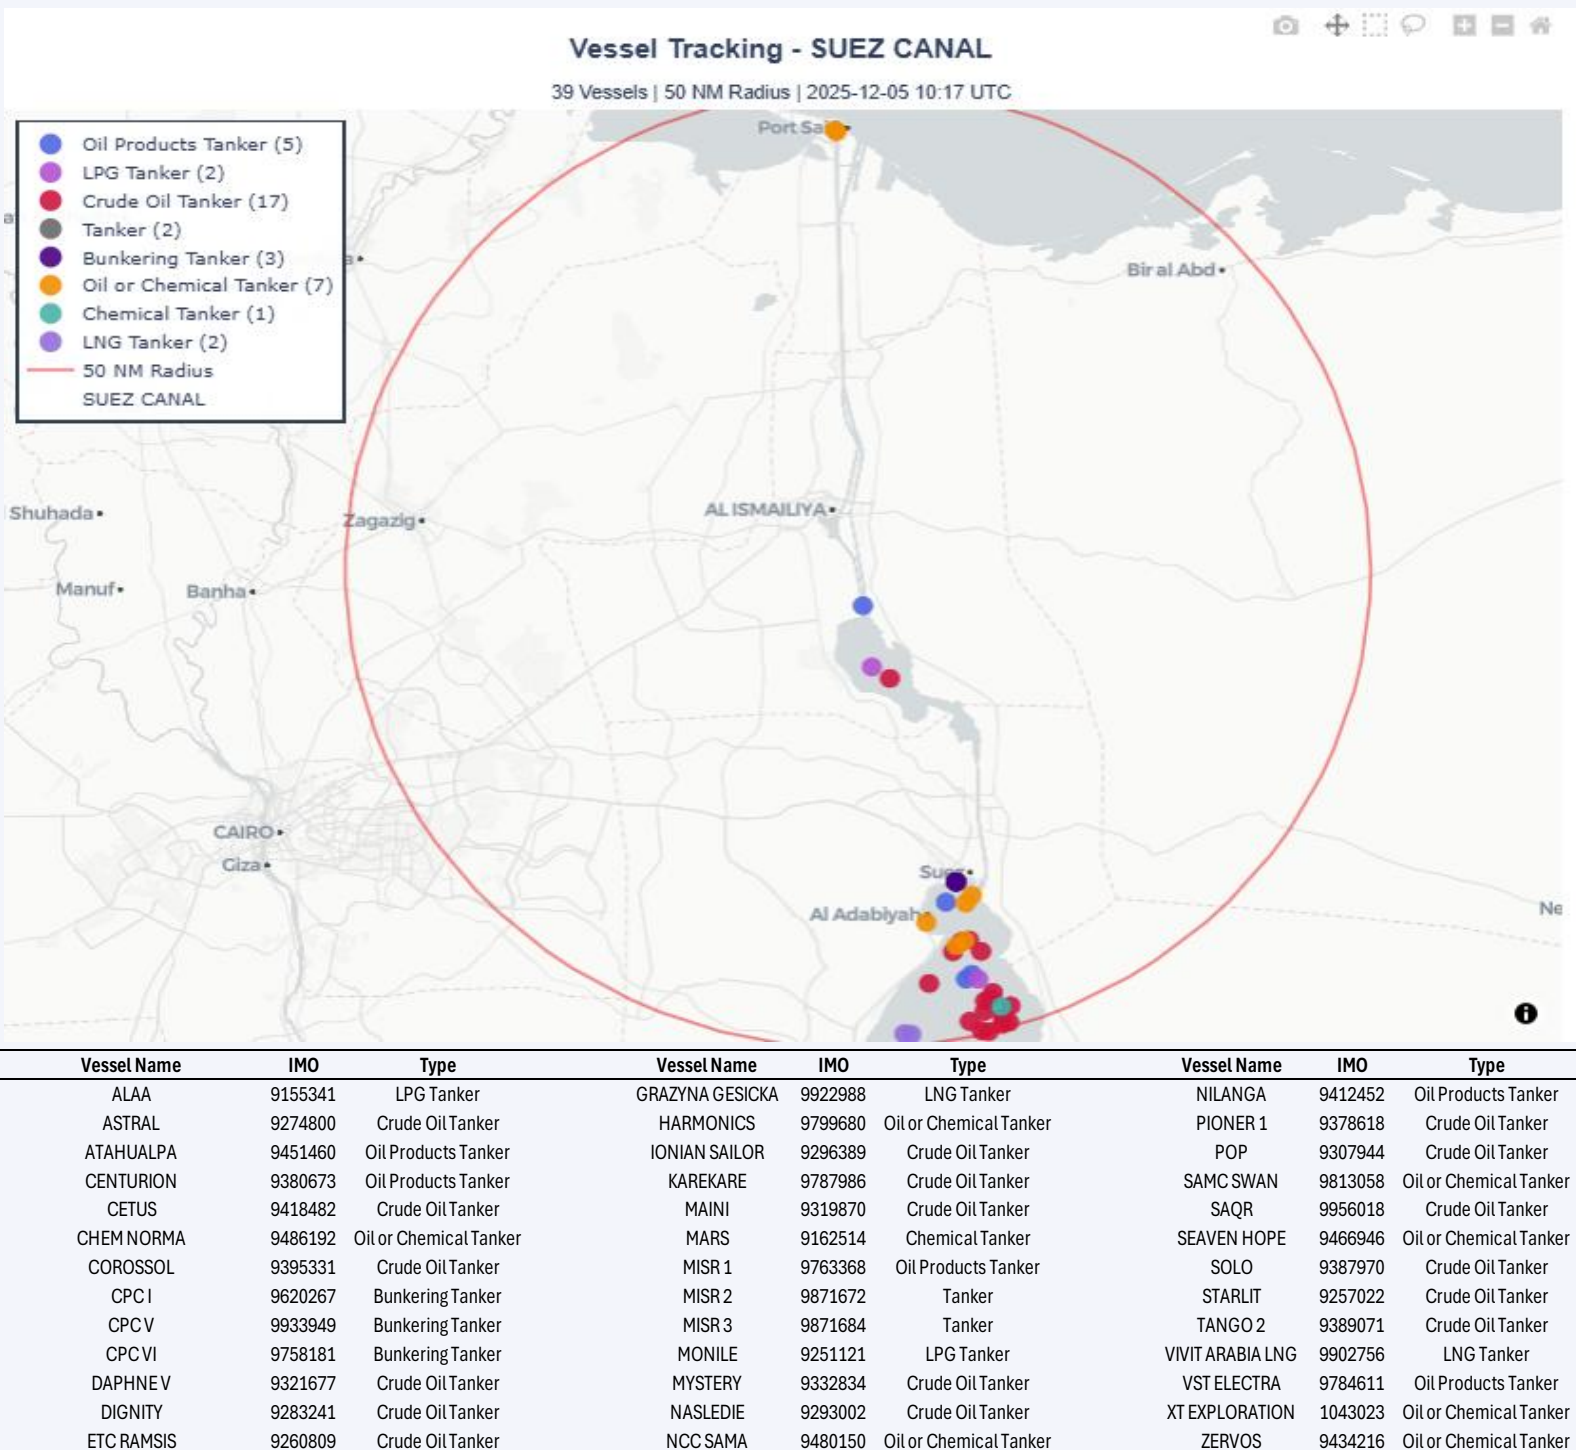

The Shipping Publication: 5 December 2025

Review of ship activity in key shipping hubs

Dear reader enjoy the expanded version of The Officials Peering Eye, where we cover weekly activity in key shipping hubs around the world, expanding to Suez Canal, Panama Canal – or US Canal to make sure the orange man doesn't turn red – as well as Al Zour refinery and the usual information and graphics about Indian ports just as Putin and PM Modi rekindle their friendship 🌈.

Suez Canal 5 December 2025

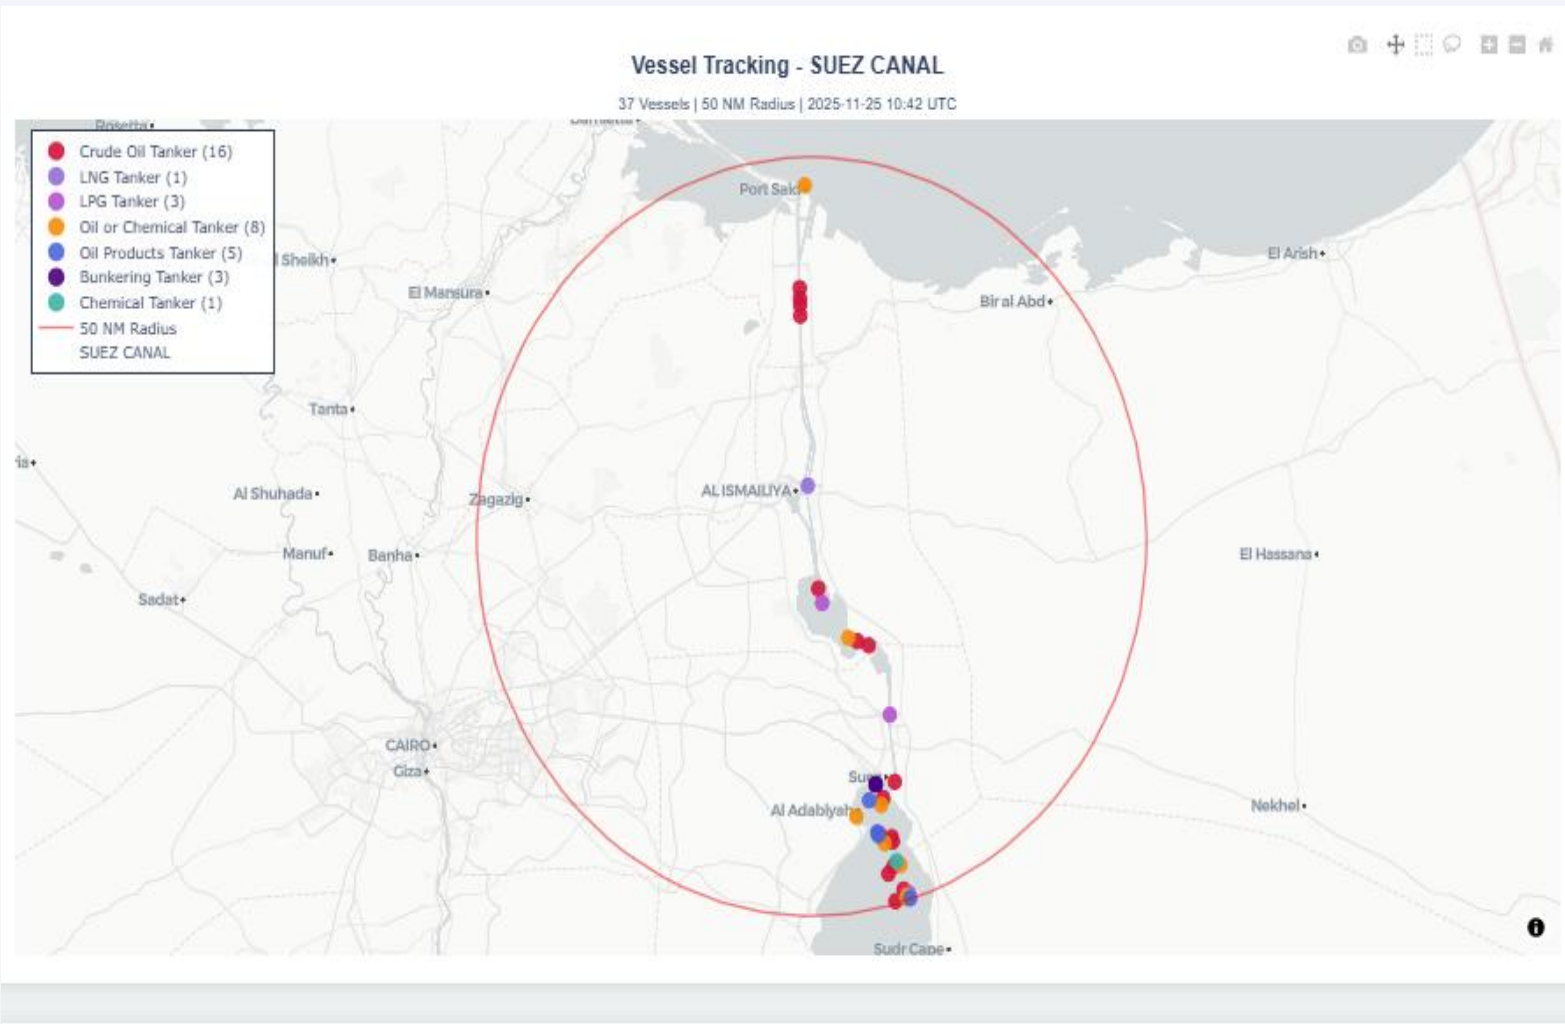

There are 39 ships in the Suez Canal, 2 more than a week ago. Crude tankers increased by 1, while Oil/chemical fell by 1 w/w.

Suez Canal 25 November 2025

Panama Canal 5 December 2025

No introductions needed for Panama Canal, but the flow remains elevated with Oil/Chemicals tankers and Oil Products tankers constituting 51 out of the 77 within the 50 nautical miles radius.

Rotterdam 25 November 2025

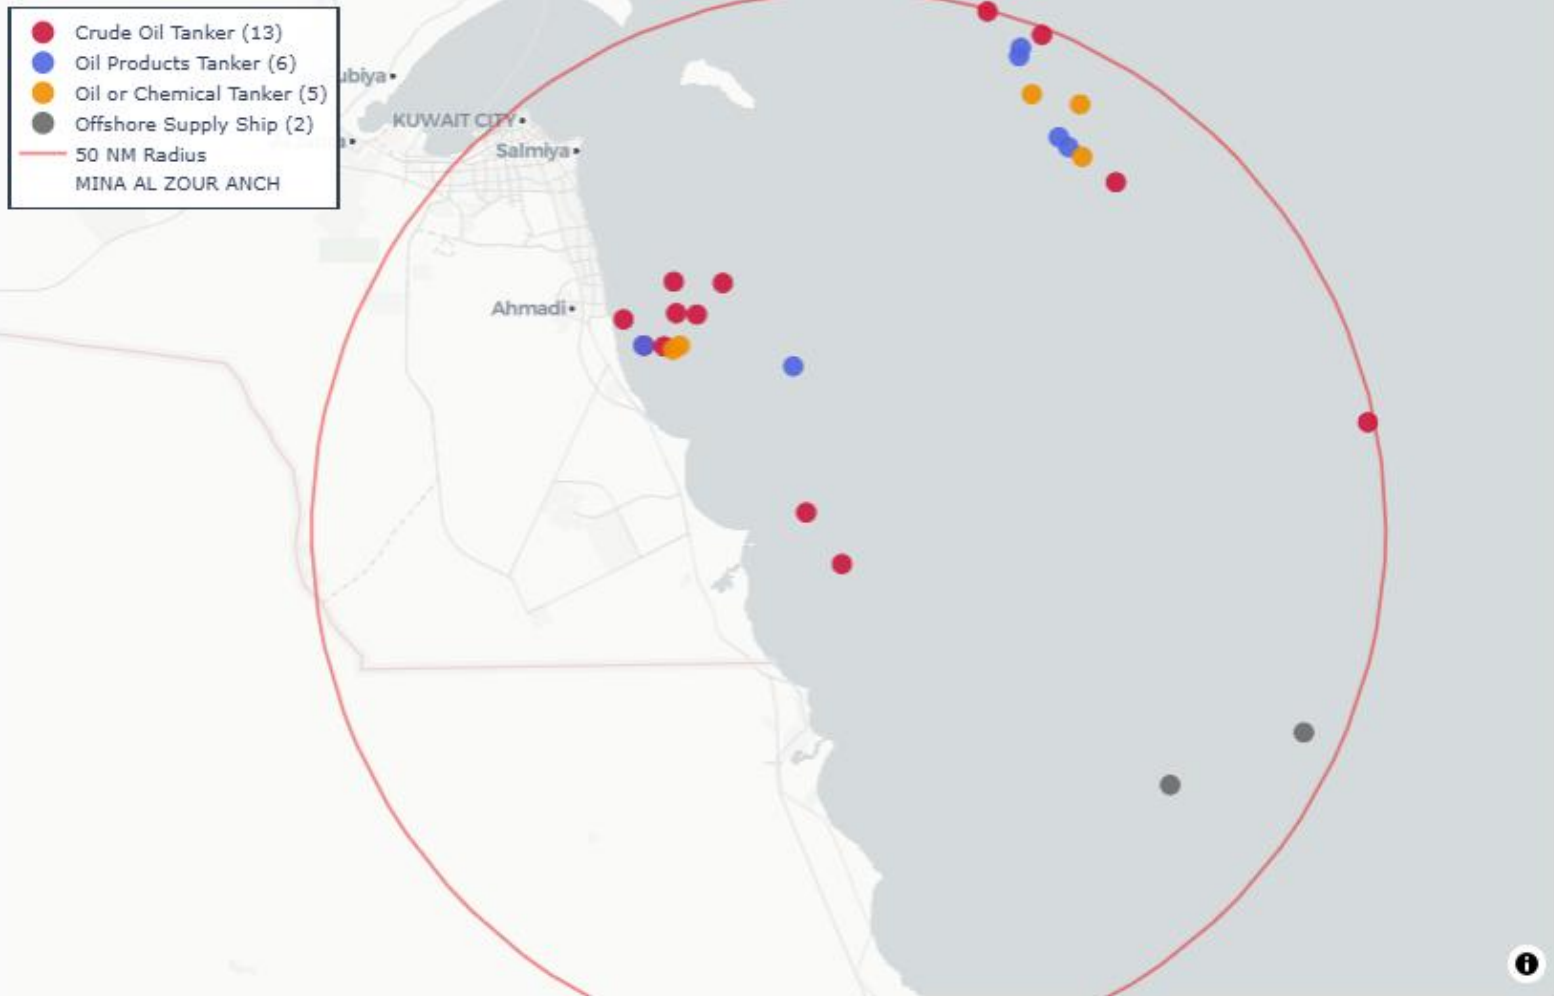

Al Zour 5 December 2025

The port of Al Zour refinery has 4 fewer ships within 50 nautical miles but it has 3 more crude tankers and 2 less product tankers. The Officials are hearing from sources that the refinery is expected to be down until late December. Clean product exports have dropped by 150 kb/d at a time when Kuwaiti crude exports have hit their highest in 2 years!

Zirku 5 December 2025

Zirku is the port loading Upper Zakum – a field with production of over 1.1 mill b/d. Remember Upper Zakum continues to be the primary grade declared in the Dubai window whenever there are convergences folks! Since October 55 out of all cargoes declared in the Dubai window have been Upper Zakum.

The port, as of this morning, had 21 vessels within 50 nautical miles, with 9 of them being crude carriers.

Vadinar 5 December 2025

Vadinar Port normally serves Nayara and Reliance at Jamnagar in the Gujarat region in Northeast India with dedicated pipelines. It primarily exports gasoline and diesel, as well as other distillates such as kerosene. It handles VLCCs and can manage 50+ mil tons per year. It shows 40 ships with total deadweight tonnage of 3,344,366.

There are 47 ships in the vicinity of Vadinar, 5 less than a week ago. Crude tankers increased by 2, while Oil/chemical tankers fell by 6 w/w.

Paradip 5 December 2025

Paradip Port is an artificial port located near the midpoint between Kolkata and Visakhapatnam. It handles primarily Suezmax vessels to handle crude, as well as other commodities such as iron ore and thermal coal. The port handled over 150 million tons of cargo in the financial year 2024–25 and is equipped with multiple Single-Point Mooring (SPM) systems that allow large crude carriers to discharge directly into onshore pipelines. Paradip primarily feeds the IOCL Paradip Refinery, a modern 15 million tons-per-year complex located just inland, which relies on the port for crude imports and product evacuation. The port is also developing infrastructure to supply Numaligarh Refinery (NRL) in Assam, which is constructing a crude-import terminal and long-distance pipeline linked to Paradip. With expanding liquid-bulk capacity and strategic refinery connections, Paradip remains the energy backbone of India's eastern seaboard.

There are 9 vessels within 50 nautical miles of Paradip, down from 12 last week.

Mumbai 5 December 2025

Mumbai Port, situated on India's west coast, serves as a critical hub for crude oil and petroleum-product flows into the Mumbai metropolitan region and adjacent states. The port's oil terminal on Butcher Island (Jawahar Dweep) handles imports of both crude and refined products; the facility includes dedicated jetties and storage tanks for oil companies. Importantly, on the refining side, Bharat Petroleum Corporation Limited's Mumbai refinery (in Wadala, Mumbai) has a nameplate capacity of almost 7 million tonnes per annum. According to Mumbai Port Authority's revised estimates in 2024-25 FY the crude imports totalled 30.5 million metric tonnes, while it handles 11.8 million metric tonnes worth of petroleum products.

The Peering Eye shows 25 ships near Mumbai, 3 less than last week, with 5 fewer crude oil tankers.

Cochin Anch 5 December 2025

Cochin Port, operated by the Cochin Port Authority, has become one of India’s most important oil-handling hubs. In the financial year 2024–25, total cargo throughput reached around 37.75 million tons, supported by strong liquid-bulk performance, which accounted for about 66% of all traffic (≈25.10 million tons). Crude-oil imports dominated the mix at roughly 17.26 million tonnes, while petroleum products contributed around 6.3 million tons, reflecting the port’s expanding role in both upstream and downstream energy logistics. A significant portion of Cochin’s crude intake feeds BPCL’s Kochi Refinery – one of India’s largest – via offshore single-point moorings and dedicated pipeline links. The refinery’s large-scale operations (15.5 million ton per year capacity) anchor the region’s fuel supply, with refined products transported onward through Cochin’s road, rail and coastal-shipping connections to markets across southern India.

8 ships are within 50 nautical miles of Cochin Anch. Last week there were 11. The drop is driven by the departure of 4 crude tankers from the area of the port.

Visakhapatnam 5 December 2025

Visakhapatnam has quietly become one of India's busiest crude gateways. In May 2024 alone, the port handled 1.43 million tonnes of crude oil across just 13 tankers – an unusually heavy month that underlines how central the port has become to India's east-coast refining system. While, according to the Visakhapatnam Port Authority crude imports exceeded 12.5 mill tonnes in FY 2023-24. Most of this crude flows directly into HPCL's Visakhapatnam refinery, a major complex with refining capacity at 15 mill metric tonnes per year and plans to expand to 18 mill metric tonnes by the next 3-4 years. The port also moves significant volumes of refined products – gasoline, diesel and other distillates – moving into eastern and central India through coastal and inland distribution channels.

Visakhapatnam Port has 6 ships within 50 nautical miles, down by 3 w/w. The decrease primarily due to 3 crude tankers leaving the are of the port.
